

HRSH VENKET

ASHOKA UNIVERSITY – COMPUTER SCIENCE MAJOR

hrsh.venket@gmail.com

(+91) 94446 47370

Website: <https://hrsh-venket.github.io/>

EDUCATION

BSc Computer Science second year student (Pursuing)

Ashoka University (2021–Present)

- Data Structures A; Probability and Statistics A; Intro to Machine Learning A

A Levels

APL Global School, Chennai (2017–2021)

- AAAA (Physics, Mathematics, Economics, Classical Studies)

TECHNICAL SKILLS

Programming Languages Python3, C/C++,

Tools: L^AT_EX, Git, GDScript (Godot), Docker, Excel

Languages: Fluent in English. Conversational Fluency in Tamil, Hindi, and German

EXPERIENCE

Mphasis Lab

Research Internship

Ashoka University (August 10 2023 - Present)

- Remote sensing work with Professor Meghna Agarwal to build a forest fire classifier using LANDSAT time series data. currently working on training an LSTM
- Worked with Google Earth Engine Python API, and currently working on a literature review

Intro to Machine Learning

Teaching Assistant

Ashoka University (Monsoon 2023 semester)

- Teaching Assistant for Intro to Machine Learning

Anup Padhamanaban lab

Research Assistant

Ashoka University ((January 2023 - August 2023))

- I worked with a PHd Student from AP Lab (Bio) and Professor Raghavendra Singha (CS)
- Used OpenCV to measure measure intestinal deformations in microscopic roundworm C.elegans via 3D reconstruction

IIT Madras

Game Design Internship

Chennai, India (Summer 2021)

- Helped build games to teach professional behaviour to students (in association with IIT CASH)

PROJECTS

Click [here](#) for more detailed writeups on my completed projects

3D Reconstruction using ML

Ashoka University (January 2024 - Present)

- Working on training a model to learning projective geometry for 3D reconstruction from 2 images, then training a model to estimate 3D shape from a single image.
- Learning to work

Load Forecasting Bounty

Ashoka University (January 2024 - Present)

- Working on [this Load Forecasting ML bounty](#) to do electricity loadforecasting using XGBoost or LSTMs
- Learning to deploy models using RDIP and weather APIs

Basic Hawkeye System

Ashoka University (November 2023 - December 2023)

- Implemented a ball tracking and 3D reconstruction pipeline using YoloV8 and openCV with projective geometry

MCTS in C

Ashoka University (November 2022 - December 2022)

- Implemented Monte Carlo Tree Search, a Reinforcement Learning algorithm, in C to play Mega Tic Tac Toe.

The Merchant of Marechikoor (Video Game)

Ashoka University (November 2023 - December 2023)

- Build a management (like Papers Please) style video game with the Godot Engine, implementing a drag and drop system, did basic 2D animations and interfaced with dialogue manager

LEADERSHIP

President of Eeshto (Board Gaming Society)

Ashoka University, (February 2023 - January 2024)

- Managed a team of 50 across 6 departments
- Won award for outstanding contributions to campus life
- Expanded Eeshto into 3 verticals, introducing a Video Games team and wrote Club Charter, doubling the size of the club
- Oversaw 20 + campus events

School Pupil Leader (/Head Boy /School Captain)

APL Global School, Chennai (2020 - 2021)

- Built a secure server for Primary school students to interact with each other outside of school hours, while allowing teachers to moderate discussion.
- Managed a team of 20 students from grades 6 to 12 who made up the student government

Secretary General

APL Global School, Chennai (2020 - 2021)

- Organised the school's first fully student driven, first online MUN
- Oversaw 100 delegates over 3 committees
- Managed expenses and conducted the first profitable MUN of the school

MISCELLANEOUS

- Trained 4 years in Krav Maga
- 20 MUNs as Delegate, 5 MUNs in Organising Committee
- Member of College Volleyball A-team (Main Setter)
